Announcing Eagle Forum of California's 17th Annual State Conference: "Restoring America's Liberty and Godly Heritage."

As you will see from our enclosed flyer, we have a wonderful, all-day conference planned, April 29, with outstanding speakers all dealing with the theme of "Restoring America's Liberty and Godly Heritage."

Our speakers will help us remember that America was founded mainly by Christians who came here seeking religious liberty. They helped establish this nation based on Biblical, Christian principles. Our Founding Fathers created our wonderful Constitution based on those principles; for example, the idea of the balance of powers between the executive, legislative and judiciary comes from the Bible, in **Isaiah 32:22** "For the Lord is our judge, the Lord is our lawgiver, the Lord is our king." Our laws are also based on Biblical laws such as the Ten Commandments. America can only be made great again if those Judeo-Christian principles, standards, and morals, are restored.

With such a wonderful theme, it is only fitting that our state conference will be held in a church. It will be in the new, beautiful Calvary Chapel - Tustin, in Santa Ana, which can hold 800 people. It would be wonderful if we can fill the whole sanctuary. Please invite your friends to hear these outstanding speakers. It is a very reasonable price – only costing \$15 entrance fee. You can use the enclosed registration form or register online at www.eagleforumofcalifornia.org.

More Anti-Trump Tirades in High Schools and Colleges: We continue to hear of liberal teachers and professors across the nation who seem to believe it is their duty and right to express their out-rage about the election of President Trump in their classrooms. Many of these reports are coming from Trump-supporting students, who have recorded the teachers with their cell phones.

However, the following picture and video were sent out by a proud teacher herself by Instagram. It shows her yelling "die" as she shoots an image of Trump on her white board with her water gun.

Video of Payal Modi, art teacher at Adamson H. S., Dallas TX, showing her with a water pistol shooting an image of Trump and yelling "Die!"

Laughter can be heard in the background of the video. It is unclear if it is coming from students or other faculty members.

What has happened to Ms. Modi because of this? Fortunately, the Dallas Independent School District has placed her on administrative leave.

However, in the next news story, the teacher who gives a hateful rant against Trump is not punished at all. Instead the student is suspended for having taken a recording of the teacher:

Student Calib O'Neil Suspended for Revealing College Professors's Anti-Trump Hate Rant:

A professor at Orange Coast College in California, Olga Perez Stable Cox, went into an extended hate rant against President Trump in her classroom shortly after his election. Among other things, she described Trump's election as an "act of terrorism," labeled him "a white supremacist" and called Vice President-elect Mike Pence "one of the most anti-gay humans in this country."

This wasn't even a political science class in which one might expect such a political talk. Cox is a professor of "human sexuality."

Calib O'Neil, a 19-year old business student and a member of the Young Republicans Club on Campus, who just happens to be the grandson of our Eagle Forum 1st Vice President Bonnie O'Neil, decided to record the 20 minute diatribe, regarding it as totally inappropriate, unfair, and biased. He showed it to the president of the Young Republicans. Together they took it to the President of the College. He promised to take some kind of action against the teacher and have her apologize to the class. A week went by and nothing happened. So the students decided to post the recording on social media to let others know what the teacher said. It went viral, and has been picked up by major newspapers and FOX news.

This caused the administration to suspend Caleb for the semester and summer school for recording his teacher without permission. Ms. Cox, however, has received no punishment. Cont. on p. 2)

Student Caleb O'Neil

(Cont. from p.1) The Orange Coast College administration wanted Caleb to write a letter of apology to Ms. Cox and a three page essay on the damaging effect of what he has done. Caleb did not agree with their request. With the help of two attorneys, he appealed the college's suspension.

According to an article written by radio host Dennis Prager, "*Why Professors Object to being Recorded*," he supports what Caleb did and believes all students have the right to record their teachers. "When professors stand in front of a class, they are in the public domain." Prager adds that just about every university professor's salary is paid partly by public's taxes. "We therefore have a right, and even a duty, to know what professors say publicly in classrooms."

In fact, I would encourage every student who cares about truth and intellectual honesty to record what their professors say in class. I would also encourage every parent to find out for what they are paying. And I would encourage professors to record themselves in order to protect themselves against doctored material.

We agree with Mr. Prager and are very proud of Caleb for being one of those students who does care about receiving the truth from his teachers and his courage to stand up and try to make a difference. In fact, Caleb is going to be honored at our State Conference, April 29, as our "Student of the Year."

Good News: Just before this newsletter was to be printed, we heard that the college has backed down and Caleb is no longer suspended, and they retracted their request of him. Do you think the pending law suits, the thousands of letters and e-mails in support of Caleb that the college has received and the bad press might have influenced their decision?

Those Behind the War on Trump: Most conservatives are beginning to realize that those involved in the hate Trump movement and the vicious demonstrations and protest rallies are really part of a "rent a mob." This is not a spontaneous movement. It is being orchestrated and funded by massively-financed elites of one general movement – those who have been working for decades to usher in a secular, borderless, totalitarian, New World Order (NWO) and world government.

All the people in this movement fully expected Hillary to be the winner so she could usher in their final plans towards their NWO. Under Obama, everything had been rapidly moving in the way they wanted. The election of Trump and the majority of Republican Congressmen and Republican governors have put a big wrench in their plans! Steve Jalsevac from LIfSiteNews.com describes it as: "a giant earthquake upending their world and their evil plans."

The globalists are enraged that their expectations of a final achievement of the "total power of man as god has been smashed." That is their ultimate goal to replace God with man and usher in their secular religion and totalitarian regime.

Primary players of those unitedly engaged in the war against Trump. Much of this list comes from the following https://www.youtube.com/watch?v=X_xN0u2d7AI:

- **United Nations and the European Union.**
- **International Planned Parenthood** and all abortion promoting and population control organizations.
- **George Soros and the radical, Marxist organizations that he has funded** with \$billions of dollars. (Soros is one of the main drivers of the evil New World Order.)
- **The leaders of the global warming/climate change movement**, which seek to destroy property rights, capitalism, de-populate the world, promote pantheism.
- **Most of the mainstream media** that are controlled by NWO elites. They are writing propaganda and lies that too many gullible, uninformed citizens are falling for.
- **The militant gay rights/transgender/radical feminist movements** which seeks to destroy marriage, family, and faith- the foundation of a free, socially healthy, sovereign nation.
- **American public education institution** (due mainly to the influence of far-leftist teachers unions), have long ago been taken over and co-opted into propagandizing students with an anti-American, anti-Christian, earth worshiping ideological world view. Students have been subjected to one-sided, heavy indoctrination on pseudoscience and climate change and promoting Islam.
- **Semi-Secret Elitist Societies** such as the Council on Foreign Relations (CFR), Bilderbergers, Tri-lateral Commission, the Masons, and other atheistic, Christian-hating groups who still exert substantial influence. (A total list of these groups and their NWO goals are found in the book *By Stealth and Deception*, pp. 145-266.)
- **The Vatican** itself seems involved as Pope Francis, the German bishops and others around him have openly developed close relationships with leading One-Worlders, supporting NWO ideals such as Global Warming; many are speaking out against Trump themselves.
- **Many of the world's multi-billionaires and largest corporations**, who have been seduced into the movement, such as Bill Gates, Apple, Michael Bloomberg, Warren Buffet, Mark Zuckerberg and more.
- **Militant Islam** - Angela Merkel, other EU leaders, George Soros and "progressive" NWO advocates, within religious and secular charities are using a contrived, massive influx of aggressive "refugee" resettlement" programs to promote Islam and force one-world, open-borders onto the West. (Continued on p. 3)

(Cont. from p. 2) **Obama's Influence in the War on Trump:** We are now finding out that Obama and his administration sought and obtained, authorization to eavesdrop on the Trump campaign even when there was no evidence of any wrong doing found. Obama, before he left office, relaxed the NSA rules to allow

evidence to be shared widely within the various branches of government, virtually ensuring that any information, including the conversations of private citizens, could be leaked to the media.

Can Trump endure this evil assault? Many of us prayed hard to get Trump elected. Even more prayers are needed to protect, guide and inspire him to stay the course and serve the will of God and the will of the people as he promised.

Victory in Fighting Election Fraud – by Diane Richards, Eagle Forum Member, Republican Chair of Trinity County:

Without free and fair elections, the freedoms and liberties we Americans enjoy dissipate into a web of corruption. Bit by bit falsely elected officials place their surrogates into place at every level of government. A fraudulent elections officer with nearly unchecked authority becomes the cog in a wheel that will misappropriate public funds and cause inappropriate policies to be put into place throughout the government. If you have wondered how Agenda 21 and the attack on property rights is rife throughout California, look no further than each county elections office.

Here in sparsely populated rural Trinity County, we citizens did not like the direction policies were moving such as restrictive planning department allowing only four new homes to be built, wildlife corridor plans, the complete shutdown of timber and mining operations, so we began to run candidates at the local level. But even though the demographics of our county are split with 50% republicans and 50% democrats, not a single upstanding longtime republican won. We were shocked, and the candidates were embarrassed by stunning losses. Something just did not smell right.

Linda Paine of the Election Integrity Project: We contacted Linda and she came and trained us. We became Certified Election Observers. Now we knew what to look for; but what we found went beyond any training manual: Officials removed ballot boxes during the election, went to their houses with ballot boxes after polls closed instead of straight to the county seat elections office, seals on the programming cards for the boxes were replaced, broken or missing altogether. We filed many complaints locally and at the state level. But we received no help whatsoever! The Secretary of State would just send form letters back stating that there was not enough evidence for an investigation.

We did more research and more red flags began to pop up. Most of our election losses were continually a 30/70 loss which we found out is an indicator of programming manipulation of either the computers counting the ballots and/or the central tabulator.

I decided to run for County Supervisor myself for last year, 2016. There were signs everywhere supporting me. The incumbent, my opponent, had only a few signs, as if he knew already it was a sure thing; he was going to win.

On primary election day, June 7th, the polling place ran the count. The final tape indicated I was winning. Then the voting box was taken by the Precinct Inspector, who performed one violation of voting rules after another like traveling alone, taking the box to his home, and stopping for food and gas before finally delivering the box to the county seat. There the box was handed over, and the infamously corruptible Diebold Accu-Vote memory card was downloaded.

The election was close. I was told that I lost by 28 votes, but there were at least 100 provisional and vote-by-mail ballots that were never counted. Our observers noted that over 100 absentee ballots were set aside, not even checked or scanned into the system. The election official refused to give anyone access to challenge the set-aside ballots as prescribed by law. Again, numerous calls to the Secretary of State resulted in nothing.

Law Suit: A certified observer, Firenza Pini, who just happens to be my daughter, filed with the local Superior Court for an election contest. However, the local Presiding Judge refused to hold a hearing and dismissed the case citing a 5-day deadline had been missed. That would have been correct for a recount but this was an election contest which allows for 30 days, especially when misconduct is involved.

Appellate Court Hearing: Firenza filed for an Appeal with the State Appellate Court in Sacramento. The county hired a Capitol Mall law firm to defend the incumbent. Papers flew back and forth and finally the Appellate Judges asked for an Oral Argument to be held in public in Sacramento, which took place on February 24th. The galley within the court building was filled with supporters for our side, plus about ten curious law students because this case was so unusual. Not one person came for the incumbent except for the county hired legal team. (Continued on P. 4)

Elated Firenza Pini with her mother Diane Richards, after the Appellate Court Hearing Feb. 24th in Sacramento.

(Cont. from p.3) **Appellate Court Victory:** The three judges did not seem very impressed with the attorney representing the incumbent, who was very poorly prepared and had no case. The Presiding Judge brought up the issue that so many voters' ballots were not counted; this was morally wrong, and that the law was clear in its intent.

The very next Tuesday, February 28, the judges released their expeditious ruling with all three concurring that we had won our case, that the Appellant was correct. The local judge in Trinity County had erred and the case for election contest is now to be heard!

Now all the misdeeds of election fraud will be brought to light in front of the people. We are hoping this case might cause a snow-ball effect, and other cases of election fraud throughout the state of California will finally also be heard.

Note from Orlean Koehle: I was at the Appellate Court hearing in Sacramento, Feb. 24, having been invited by Diane Richards. I got to meet her daughter Firenza and have great admiration for the both of them. It has taken much hard work, many long hours, diligence, stress, and has cost lots of money for them to file a law suit over the election fraud that they personally have witnessed and experienced.

They would both appreciate your prayers in their behalf as they go forward with a new trial in Trinity County. And I am asking if you can possibly also contribute monetarily to help cover the high costs of the legal process that they are experiencing. Any contribution would be greatly appreciated. Send donations to Firenza Pini, PO Box 501, Hayfork, Ca 96041, or contribute on line at:

Mayhem at Pro-Trump Rally in Berkeley, March 4

As one can see from the bloody face of an injured Trump supporter, the peaceful pro-Trump march through the streets of Berkeley, turned into a brawl as protesters tried to disrupt, hit, attack and fight anyone wearing pro-Trump shirts, hats or holding a Trump sign or U.S. flags.

So much for free speech in Berkeley! Only those who the radical anti-Trump activists agree with get to have the right of freedom of speech. Others get attacked.

According to some pro-Trump supporters who were there and called in on the Morning show on KSFO radio, March 6, the police did hardly anything to stop the mayhem. They just stood by as the peaceful marchers were attacked. Eventually, 10 protesters were arrested, a small token of the 100s who should have been. The police did confiscate bricks that someone was about to throw, metal pipes, bats and two-by-fours. What has happened to our police protection?

SOLUTION TO GUN CONTROL – submitted by David Lehman, Director of Eagle Forum of Orange County
Obama has obviously missed the solution!!!

In 1865, a Democrat shot and killed Abraham Lincoln, President of the United States.

In 1881, a radical Democrat shot James Garfield, President of the United States, who later died from the wound.

In 1963, a radical left wing socialist shot and killed John F. Kennedy, President of the United States.

In 1975, a left wing radical Democrat fired shots at Gerald Ford, President of the United States.

In 1983, a registered Democrat shot and wounded Ronald Reagan, President of the United States.

In 1984, James Hubert, a disgruntled Democrat, shot and killed 22 people in a McDonald's restaurant.

In 1986, Patrick Sherrill, a disgruntled Democrat, shot and killed 15 people in an Oklahoma post office.

In 1990, James Pough, a disgruntled Democrat, shot and killed 10 people at a GMAC office.

In 1991, George Hennard, a disgruntled Democrat, shot and killed 23 people in a Luby's cafeteria in Killeen, TX.

In 1995, James Daniel Simpson, a disgruntled Democrat, shot and killed 5 coworkers in a Texas laboratory.

In 1999, Larry Asbrook, a disgruntled Democrat, shot and killed 8 people at a church service.

In 2001, a left wing radical Democrat fired shots at the White House in a failed attempt to kill President George W. Bush.

In 2003, Douglas Williams, a disgruntled Democrat, shot and killed 7 people at a Lockheed Martin plant.

In 2007, a registered Democrat named Seung - Hui Cho, shot and killed 32 people in Virginia Tech.

In 2010, a mentally ill registered Democrat named Jared Lee Loughner, shot Rep. Gabrielle Giffords and killed 6 others.

In 2011, a registered Democrat named James Holmes, went into a movie theater and shot and killed 12 people.

In 2012, Andrew Engeldinger, a disgruntled Democrat, shot and killed 7 people in Minneapolis.

In 2013, a registered Democrat named Adam Lanza, shot and killed 26 people in a school in Newtown, CT.

As recently as Sept 2013, an angry Democrat shot 12 at a Navy ship yard. Clearly, there is a problem with Democrats and guns. Not one NRA member, Tea Party member, or Republican conservative was involved in any of these shootings and murders.

SOLUTION: It should be illegal for Democrats to own guns. We don't need gun control, we need Democrat control. Guns don't kill people, Democrats do!

George Washington’s Farewell Address - Principles Greatly Needed Today by Darcy Brandon, Eagle Forum State Board member
 President George Washington gave his famous Farewell Address as he was leaving office after a contentious election between John Adams and Thomas Jefferson.

In this address, he “called for Nationalism, Neutrality, and Nonpartisanship.”¹ In regards to Nationalism, Washington had a “deep belief in the need for union versus the potential dangers of regionalism, states’ rights, and ‘geographical distinction.’ In foreign policy, the chief executive reemphasized the goals of his Proclamation of Neutrality – to offer friendship and commerce with all nations, but to ‘steer clear’ of ‘political connection...and permanent alliances with any portion of the foreign world.” The intent was to have the United States lay low and *where prudent* refrain from foreign interventions. Washington warned against political partisanship.

He ended his Farewell Address with “an appeal to the sacred, as he frequently did.” He “stated that **‘Religion and Morality are indispensable supports’**” for our Republic. “It would be hopeless, he implored, to think that men could have “security for property, for reputation, for life if the sense of religious obligation desert the oaths” of office holders. In such arenas as the Supreme Court, where oaths provided enforcement of those protections, Washington somberly noted, mere morality alone could not survive without ‘religious principle.’” This “warning to the nation was that effective government required more than a chief executive of high moral fiber – the entire nation had to build the country on the backs of its citizens’ behavior.” (The above quotes were taken from Schweikart, Larry & Michael Allen, *A Patriot’s History of the United States*, Sentinel, p. 149)

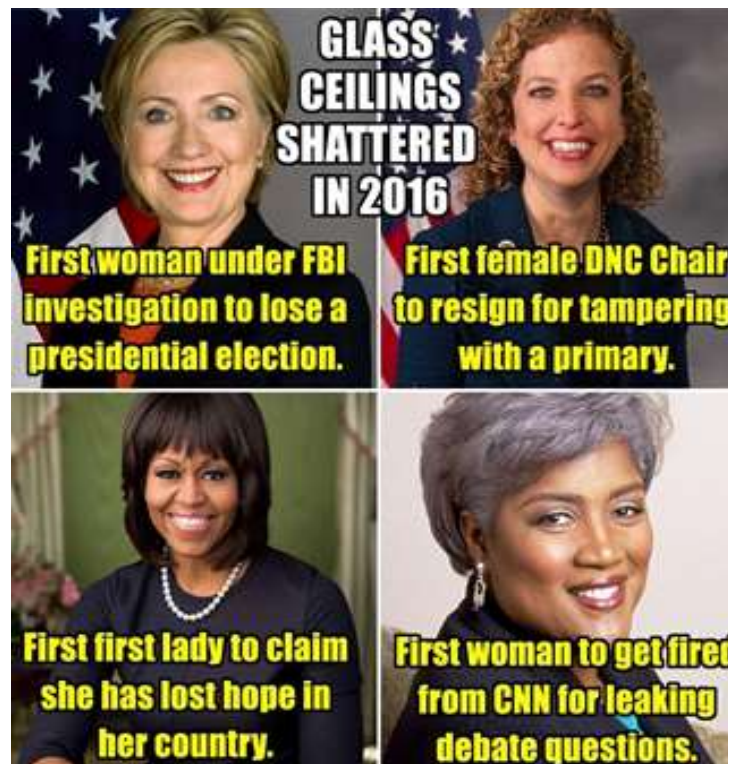

Wouldn’t it be wonderful and wouldn’t it solve so many of our problems if our entire nation could follow Washington’s advice and get back to our religious and moral roots? This is what gives people a sense of decency and restraint and the desire to others with courtesy and respect even if their beliefs differ from you own. Religious teachings from the Bible such as “the Golden Rule” instructs them to treat others as they would want to be treated. If they followed that they would not then be hitting others over the heads, pushing them down, burning their Trump hats, or their American flags, etc.

Again, this is why we have entitled the theme of our 17th Annual /Conference “*Restoring America’s Liberty and Godly Heritage.*” This is what our nation needs the most if we are going to preserve any semblance of civility and keep from becoming a police state in the coming years.

Glass Ceilings Shattered by Five Infamous Democrat Women

Senator Elizabeth Warren, known for her long-winded filibusters and her false claim to have Cherokee blood in her ancestry, is the first women senator to be named “Princess Talking Bull.”

California Bills to Keep an Eye On:

Bills Promoting Sanctuary Cities / Protecting Immigrants:

SB29 -This bill would, commencing on January 1, 2019, prohibit a city, county, or city and county, or a local law enforcement agency from entering into, renewing, or extending the length of a contract with a private corporation, contractor, or vendor to detain immigrants in civil immigration proceedings for profit. Authored by Lara. Note Lara is an anchor baby, his parents are illegals. He has admitted this publicly. Referred to the Judiciary Committee.

AB3 - This would provide more legal services for immigrants with payment by tax paying dollars. It require the State Department of Social Services and any non-profits that contract with it to provide grants for the funding to expand programs and give legal training to county offices of the public defender on issues relating to the immigration consequences of criminal convictions. Authored by Rob Bonta - Referred to appropriations.

SB6 - is the companion bill to AB3 for the Senate. It would require the State Department of Social Services to either contract with qualified nonprofit (np) legal services organizations, or contract with a np agency to administer funding to np organization subcontractors, to provide legal services to individuals who are not otherwise entitled to legal representation under an existing local, state, or federal program. This bill contains other related provisions. Author-Ben Hueso: referred to appropriations.

SB1 - Transportation and Funding - it would increase gas taxes by another 12 cents a gallon; (Note the gas tax in Ca. is already at 38 cents a gallon). It would give a \$38 increase for vehicle registration fees for regular cars and a \$100 vehicle registration increase for cars with zero emissions. Supposedly, that money would be used for repairing our roads, but “there are a lot of moving parts” in the bill that would be using the money for other things. It was Introduced by Senator Beall. It is currently in the Senator Governance and Finance Committee.

SB18 – Children and Youth Bill of Rights – This bill is based on the UN Rights of the Children Law that the US has always refused to ratify because of its infringement on parental rights. SB 18 establishes a list of inherent rights to which all of California’s minors are supposedly entitled. This broad list of children and youth entitlements includes:

- the “right to parents, guardians, or caregivers who act in their best interest,”
- the “right to live in a safe and healthy environment,”
- the “right to social and emotional well-being,” and
- the “right to opportunities to attain optimal cognitive, physical, and social development.” This would take away parental rights and expand socialism

Authors are Senator Richard Pan and Jim Steyer It is still in the Rules Committee waiting to be assigned. Call your state legislators and tell them to say no to all of these bills.
