A Pandemic or Plandemic? – The Perfect Crisis for Turning the World Upside Down:
by Orlean Koehle

The above picture shows a sculpture titled “The World Turned Upside Down,” with all the countries of the world now in the Southern Hemisphere. It was presented by a prize-winning artist, Mark Wallinger, a year ago, March 26, 2019, to the London School of Economics (LSE), in London England, where it will be permanently located.

LSE is the perfect home for it, for it is a very left-leaning, liberal university founded by a powerful group of left-leaning, “Fabian Socialists,” who also started the labor party in England. Many members of the British parliament belong to both the labor party and the Fabian Socialists, including two recent former Prime Ministers Gordon Brown and Tony Blair. The group boasts a present membership of 7,000.

Desire to Change the World: One of the primary goals of the group from their founding, which is depicted in a stain-glass window displayed proudly at the LSE, is their motto “Reshape the World to Our Hearts’ Desire.”

That is why they are thrilled to have the present sculpture of the world upside down on their campus – that is their hearts’ desire. That is what they, and every avowed socialist is all about.

The artist, Mark Wallinger said the following about his work: “This is the world, as we know it from a different viewpoint. Familiar, strange, and subject to change.” What a hint or fortuitous statement for the world exactly one year later! It is also interesting that the liberal globalists like to always give us a hint of what is coming our way. It is almost written into their code book.

Sure enough, exactly one year later look what has come to pass? By the Spring of 2020, our new world is a little bit familiar, but, for the most part, it is very “strange and subject to change” almost every day. What is so curious about all of these changes – they resemble every socialist/communists’ dream come true.

Could the COVID-19, the little microscopic coronavirus, that supposedly rose spontaneously out of a fish market in Wuhan China, wreak such havoc in the world all by itself? Or were the resulting dramatic, catastrophic, socialist effects on the nations of the world all part of a carefully orchestrated plan?

As many of you know because you have been helping me, e-mailing me, or calling me with all sorts of good information, I am writing a book, with the same title as this article, in which I answer those questions.

In early March, when we began to first experience the “shut downs,” I became very suspicious of this “pandemic” because of the perfect, socialist, crisis and havoc it began to usher in - draconian big government controls, toppling our economy, and taking away our personal freedoms and rights, more than any of us have ever experienced in our lives, and all done so quickly – in a matter of two months!

Drastic Changes Accomplished by COVID-19:

With the threat of an approaching deadly pandemic, fed by the constant fear tactics of Dr. Anthony Fauci and Dr. Deborah Birx, supposed experts who created very frightening computer models, accompanied by the media, emergency orders were issued by President Trump, followed by each of the state governors. Pretty soon the entire nation was on lockdown, with all of the people “sheltered-in-place,” only going out for “essential items” at a grocery store, or pharmacy, or drive-through restaurants. The majority of businesses were closed, deemed “non-essential.”

All travel was stopped from China, followed by travel from all European nations, where the numbers of dead from the virus kept souring.

All hotels were closed, all federal and state parks were closed, followed by city parks, pretty soon all beaches were closed.

What did This do to the Economy? On March 9, “Black Monday” the stock market crashed going from a record high of 30,000 to a low of 23,851.02. It fell 2,013.76 in one day - 7.79% in the Dow’s worst single-day point drop in U.S. market history. As of the middle of May, 36 million people had filed for unemployment.
Socialist Goals Furthered by the COVID 19 Pandemic Scare: (Thanks to David Lehman of Orange County for many of these. Others came from the book mentioned at the end.)

These Goals are all part of the Plan to Usher in a New World Order, NWO: With the COVID 19 scare, the move to global government is on fast track. We will be hearing more and more about the importance of “global government to combat a global crisis.” It is all for our “safety,” but it is really all about control of our lives – total control!

Some of these goals we can already see happening. Others will be more obvious with future scare tactics, maybe a new rise in this “pandemic” scare or other ones coming. Some think COVID-19 is just a test run. Here are the Socialist goals:

Property - The end of all private property. Children are already being taught in our schools that, “Owning property is selfish and greedy.” All property, natural resources, all schools, banks, and businesses will be nationalized – government owned or controlled.

End of Private Transportation – with AI (artificial intelligence) and driverless cars, driverless trucks, owning cars may become obsolete and outlawed as unsafe. Presently, so many airlines are at risk of going under. It is estimated only 4 big airlines will be able to survive financially flying with only 35% of their planes full because of “social distancing” rules. Eventually, all airlines, trains, buses will be nationalized.

Population Control: Globalists believe the world is over populated. They want births to be tightly controlled and limited. They don’t mind if populations are destroyed through war, abortion, pandemics, or vaccines. (Some want the population of the world to be only one billion; others want only 500 million (as stated on the Georgia Guide Stones.)

Marriage and Family - The end of traditional marriage and the family as we know it. Free sex and immorality will be encouraged. Children will be removed from the home at an early age to be brought up as wards of the state.

Education: Children will be raised in government controlled schools hooked on technology. Is that what every child is now having to use in their stay at home education? Children will only be taught “correct” indoctrination so they will believe in and help promote world government.

Health – There will be total socialized medicine under control of the State with mandatory multiple vaccines. Vaccines are a great way to control population, either by creating sterility or autism or causing weak, unhealthy children who die early.

ID2020 Mandatory Vaccines with Digital ID or an RF chip will be inserted, by which you will be tracked and traced. You will be forced to take the chip to be able to enter public buildings, to fly, to travel, to buy or sell. Otherwise, you will be an outcast from society, having to survive on your own.[See the insert to read about Bill Gates’ plans for the vaccines and the digital ID and read Revelations 13:16-17.]

5G Antennas with Trillions of Appliances hooked into the 5G monitoring system of the Internet of Things. The faster the 5G, the faster the data can be collected on all of us. 5G will also be the weapons used for future wars – “Silent Weapons for Quiet Wars.” 5G laser weapons are already being used instead of boots on the ground. 5G satellites (about 40,000) are planned for the whole earth – many are already launched.

A World Court – all laws will be uniform backed up by a World Military and World Police like the UN peace keepers now. They will be the only ones with the right to own guns.

Gun Control and Confiscation – No one else will be allowed to own a gun, as it is already in most countries of the world.

Redistribution of Wealth. More taxes will be taken from the wealthy and used for social services and welfare for the poor, and anywhere else the powerful elite want the money to go.

The US Constitution will be abolished and forbidden to be read. It brings too many dangerous concepts of independence and freedom, not reliance on government, and we will no longer be an independent nation that will need its own laws.

No More Sovereignty, or National pride or Racial Identity. They will be stamped out, and borders will be erased. We will be taught to only think of ourselves as earthlings, no more Americans, Germans, British, Canadians, etc.

Mind-Controlling Drugs will be Expanded and used in compulsory treatment especially for rebellion or disorderly behavior. [The waves of 5G can serve the same purpose. How much easier with 5G so close to our homes!] Such drugs will be given in food or water supplies without the knowledge or consent of the people. That is already happening with fluoride in municipality water supplies and in our toothpaste. Fluoride also slowly affects the mentality of those using it.

“Drug bars will be run by one-world-order employees. This is where the slave class can spend their free time. They can then be reduced to a level of beasts, with no will of their own, easily regimented and controlled, with no desire to ever change and rise out of their sad circumstances.”* [This is the effect marijuana and other addicting drugs and behaviors are already having on our youth. They become oblivious to the world around them, just existing for their next “fix.”]

Implementation of a World Social Credit System (like China now has). Money will be automatically added to your credit card (on your cell phone) if you have done a good deed or have done well obeying all the laws, but money will be deducted and privileges taken away if you have broken laws.

Universal Basic Income – to help keep companies from prospering and keep employees at a minimum wage.

Cashless Society - They want to make as many people as possible unemployed and dependent on government for bailouts. They want to break the present system of cash and put us on a new digital block-chain system of currency, so they can more completely control the money. If you control the money, you control the people. They want a world economy ruled by one central, world bank.

Impose UN Agenda 21/2030 - Sustainable Development Goals, (really draconian rules) for total control of every aspect of our lives as we “interact with the environment.”

Destroy the Judeo-Christian Churches: Globalists seek to systematically dismantle the churches. They want a world religion, but not a Biblical one. It will be a new-age, pagan, earth-worshiping religion. Globalists have a hatred for true Biblical churches which they believe promote “individuality, freedom and God-given rights.” The Bible is the biggest obstacle to a one-world, socialist, communist government.

*(Orlean Koehle, By Stealth and Deception, USA Transformation and its Parallel to the European Union, Chapter 8-15)
Voting Only by Mail in the November Election: by Bonnie O’Neil, 1st Vice President

If you had any doubt that the Democrats are going to try to leverage the coronavirus crisis as part of their latest attempt to prevent Donald Trump from winning re-election in 2020, consider that both former President Barack Obama and First Lady Michelle just advocated voting by mail.

Remember when Obama chose to graciously bow out of the spotlight and allow the White House and his Democrat Party to move forward, instead of hovering around and using his name and influence to help the Deep State apparatus in Washington DC attempt coup operations?

Unfortunately, those good old days appear to have disappeared; we can kiss them goodbye. They now appear to be long gone and likely will not return.

It is as suspicious as it is troubling that the Obamas joined several top Democrats in asserting that the United States should implement a vote-by-mail option for the upcoming November’s elections. The timing of this is as suspicious as the intent. This former President was being admired for his stated goal to remove himself from politics and allow President Trump the gift of not being second-guessed by this former President. Why the reversal now, at such a crucial time in our history? It seems he agrees with his former friend Rahm Emanuel who stated, “Never let a good crisis go to waste”. 

Barak Obama referenced a New York Times story which defended “voting by mail” and quoted two of his own former campaign employees, Amelia Showalter and Brian Dunn, who advocated for this change. Michelle Obama made the following Instagram statement:

“No American should have to choose between making their voice heard and staying safe. Expanding access to #VoteByMail, online voter registration and early voting are critical steps for this moment—they’re also long overdue. There’s nothing partisan about striving to live up to the promise of our country; making the democracy we all cherish more accessible -- and protecting our neighbors, friends, and loved ones as they participate in this cornerstone of American life.”

Perhaps the N.Y. Times and any others who think this is a good idea should ask Republican voters in Orange County, California their opinions on the subject; specifically, those who carefully examined the last Orange County, Ca. election in their cities. Republicans voters would provide a very different opinion after they saw an unexplainable, shocking outcome from their last County election. It was a reversal of what had been the outcome for many decades in their County.

Ballot Harvesting: The very next election in which “ballot harvesting” was permitted, Orange County election results dramatically changed. Republicans had traditionally won the majority of contests in the County, especially in cities like Newport Beach and Laguna Beach. After liberal California State leaders passed a new law that permitted “harvesting ballots” a major shift was seen in the election results. This law allowed anyone to go door-to-door and offer to take a person’s ballot to the Department of Gathering or what some know as Ballot Harvesting was legalized.

After that Ca. State law was enacted, a complete reversal in election results was realized. The only explanation for this was the new “harvesting” law.

Former president Obama was overtly critical of the election which took place in Wisconsin, in spite of widespread efforts to prevent the spread of the virus.

House Speaker Nancy Pelosi and Hillary Clinton, the woman for whom Obama tried to rig the last election, have also been using the coronavirus to justify launching a national vote-by-mail option for Americans. That alone should be a “shout-out” that Republicans should be very, very concerned about this voting process. Republicans should fear the next change will be the disaster described above that allows “ballot harvesting.”

Allowing anyone to go door-to-door throughout the County collecting stranger’s ballots is very dangerous. It invites voter fraud, because there is no easy way to prove the “gatherer” of such ballots delivered them safely to the proper authorities. It is entirely possible that those specific “gathered” ballots (if they were not for the Democrat candidates) were burned in someone’s backyard.

Naturally, due to the high degree of undetected voter fraud, sensible people everywhere, including President Trump, have been strongly opposed to ballot harvesting, as it obviously invites opportunities for the likelihood of election fraud.

“I think a lot of people cheat with mail-in voting,” Trump wrote on Twitter last week. “I think people should vote with ID, with Voter ID.” That Republicans agree and Democrats oppose the option should be given serious consideration.

There certainly is evidence to support our President’s claim. Consider the last Presidential election in Orange County, Ca. Popular Republican candidates who had been elected to office for decades, surprisingly lost elections that surveys had indicated would be easily won by the Republican candidate.

Newport Beach, Ca. is an example. The City had voted Republican for a century, but the very election after Harvesting Ballots was legalized, the City elected Democrat candidates over their Republican opponent. If this was the only example, there might be a case for Democrats having worked harder to accomplish the change. However, the more logical explanation was the new law that allowed ballot “harvesting” because candidates winning the majority of seats happened the next election after “ballot gathering” was legalized. Let us do everything we can to oppose having an entire “vote by mail” election and stop ballot harvesting!
As many of you know, I have done several years of research on 5G in writing my book about it called Whooa Nellie! I know how harmful 5G can be to the human body and it greatly weakens the immune system. It is like exposing a person to a constant microwave oven, using the same high gigahertz frequency range of 50-60 Gthz.

China is heavily involved in 5G, wanting to be the supreme leader of the world, through their 5G system called Huawei. They have also created some very powerful 5G weapons.

On November 1, 2019, China announced to the world that they were the first country to turn on their 10,000 base stations in Wuhan, which was their biggest test city for 5G. They also turned on 130,000 other 5G stations throughout the rest of their large mega cities (all over ten million people). A few weeks later, the virus broke out from the Wuhan lab. It did not come from a bat in the fish market. The market has never sold bats.

There are many experts who believe that it was the 5G that had so weakened the immune system of the people in Wuhan and made them so susceptible to the virus. Others actually believe that it was the 5G that was killing the people, not the virus. Where 5G was not turned on in China, the people had no problem recovering from the virus. It was like a summer cold to them. When the virus seemed to be less severe in China, is probably when they turned off the 5G.

Where the illness was most severe in Italy, Spain, and New York City, is where 5G had also been activated. The parts of Italy and Spain where it was the worst was where there were many Chinese immigrants and where Huawai was in full force.

New York City was a test city for 5G for the USA. It probably had been turned on there as well.

British Whistleblower who Worked for Vodofone Tells of Dangers of 5G: John Kaminski, made a YouTube video of an interview with a whistleblower who used to work for Vodafone, the biggest Telecom company in the UK. He finally quit recognizing how dangerous it was to work with 5G. Here are some of the claims that he makes:
1. The virus is a distraction while a smart grid and 5G is being rolled out quickly across the globe - while we are all sheltered-in-place and can’t see what is going on.
2. The symptoms of the bodies reaction to the virus are similar to the bodies reaction to 5G EMF radiation.

3. The Coronavirus is a cover story for 5G and what it is doing to our bodies, so no one will know how bad 5G is.
4. Where countries have little or no 5G, there are very few deaths.
5. 5G is in hospitals, on cruise ships and Air Force carriers – that is why so many people were sick and stayed sick while they were around 5G.
6. To the globalist behind all this, people are not as important as the billions of dollars 5G is supposed to bring in. They think the world is overpopulated anyway. They are perfectly happy to sacrifice millions of lives.

HUANGMEI

**5G Causes the Body to Be Starved for Oxygen:** This is also the case with the virus, but the effect of 5G is much more severe. 5G affects the O2 molecule and causes the electrons connecting the two molecules together to start spinning just as the microwave oven heats up your food when you turn it on. The water molecules of the food start spinning. The oxygen is now so changed that the hemoglobin can no longer attach on to it and carry it to all the cells of the body, so the body literally is dying from lack of oxygen.

Dr. Kyle-Sidell is a NYC physician, who posted two videos on YouTube, pleading for health practitioners to recognize that COVID-19 is not a pneumonia-like disease at all. It’s an oxygen-deprivation condition:

**Patients Are Being Starved of Oxygen:**
COVID-19 lung disease, as far as I can see, is not a pneumonia and should not be treated as one. Rather, it appears as if some kind of viral-induced disease most resembling high altitude sickness. Is it as if tens of thousands of my fellow New Yorkers are on a plane at 30,000 feet at the cabin pressure is slowly being let out. These patients are slowly being starved of oxygen.

And while they absolutely look like patients on the brink of death, they do not look like patients dying from pneumonia... I suspect that the patients I’m seeing in front of me, look as if a person was dropped off on the top of Mt. Everest without time to acclimate.

**Masks and Ventilators Do not Help:** Many doctors are saying that wearing a mask prevents the body from having what it needs the most - oxygen, plus you are now breathing back your own carbon dioxide. The ventilators are actually hurting the lungs not helping them. Inserting the ventilator weakens the immune system and takes away the lungs ability to breathe on its own. More patients die who use ventilators than those who don’t.
The series begins when Phyllis was leading the epic battle to defeat the Equal Rights Amendment.

Phyllis is played by two-time Oscar winner Cate Blanchett, who is also the executive producer. Although Miss Blanchett did a very good job portraying the way Phyllis spoke, her hair and the way she dressed, whoever the script writer is totally fails at showing who the real Phyllis Schlafly was. Anne Schlafly Cori believes anyone watching all the episodes would conclude - the real purpose of the series was a hit job against her mother and against all Christian, conservative women.

Phyllis in the movie is portrayed as “cold and calculating” and her devoted husband attorney Fred was portrayed as a “sexist monster.” Anne was shocked at how the show portrays her parents’ loving marriage as just the opposite. In multiple scenes, they show Fred bullying and harassing Phyllis and show Phyllis bullying and harassing her children and her opponents. The feminist writers’ view is that “Phyllis was both victim and victimizer.” Phyllis was never either.

Some of the many untruths that the series show are: her mother never threw Anne into the swimming pool; there was no forced marital sex or bullying or harassing, and Phyllis never had the doubts and anxieties that the movie shows. To quote Anne:

“My parents...were full partners: intellectually, spiritually, and romantically. Fred Schlafly was fully supportive of everything that his wife said and did. My mother never had the doubts and anxieties shown, because her convictions came from her deep faith in Jesus Christ. Mrs. America has not shown the faith side of Phyllis, which misses out on the single most important key to Phyllis’ courage. Phyllis Schlafly did not have a double life - how she was in public was how she was in private.”

Orlean Koehle has captured the true nature of the Refugee Resettlement Program and its underlying agenda. She has shown the true history and character of Islam and how the media coverup has distorted Islam’s immediate and future goals. She has shown how the enslavement of millions has been deleted from our public-school curriculum and from the PBS timeline. She uncovers what the politically correct news media has left out and clarifies Islamic history in extremely interesting and well documented style. Islam Rising is captivating because of all the true stories illustrating what is happening in the world today and what has happened to lead us to the present crisis. I recommend this book to everyone and especially to Muslims who have been kept from the truth.” — Dr. J. David Lehman, cult and world religion expert

Orlean Koehle, in her well-written book Islam Rising, offers a comprehensive explanation of the serious Islamic threat to our American freedoms and to Christianity worldwide. I highly recommend it to anyone interested in preserving their liberties and religion.” — Anne Schlafly Cori. CEO of National Eagle Forum, daughter of the late Phyllis Schlafly

“Orlean Koehle has an incredible way of turning her real-life experiences into a warning to America. She grasps this last stage of world domination by Islam and documents the subterfuge and evil rapidly moving throughout our beloved Republic. All wonderful Americans who love freedom, family and Christ need to read Islam Rising, put on the full armor of God and assemble their community to wake up or else freedom, family and Christianity will go underground. Yet Jesus reminds us that with God, all things are possible to those that believe. (Mark 9:23.)” — Donna Hearne, Reagan Presidential Appointee, U.S. Department of Education, now serving as President of the Constitution Coalition in St. Louis, MO.

“Orlean Koehle shows that the Muslim refugee immigration plan is a cleverly designed farce to invade and take over western countries. This book is a must read. We must wake up now!” — Pastor Ernie Sanders of “What’s Right, What’s Left” Radio Ministry; he has been an outspoken radio pastor for almost 50 years, known as the “Voice of the Christian Resistance.”
What Happens to America when Government Becomes Your ATM? Pat Daugherty, online editor for national Eagle Forum, writes, “…how willingly American citizens abandoned their basic freedoms because federal and state governments have said so. The unprecedented orders to stop work, close schools, and seal church doors have prompted the most sudden capitulation to government overreach in the history of our country. To help in the crisis, Congress has voted to send trillions of dollars to individuals and to businesses, hoping to be the savior while things are going bad.”

Columnist Cal Thomas states that rarely do these supposedly temporary bailouts go away, leading to what is already being described as a “new normal” of government dependence. “It is a slippery slope that will require courage and vigilance to prevent.”

What is Government’s Responsibility? According to Cal Thomas, “The Founders wanted government to be limited so the people would be unlimited in their pursuit of whatever made them happy.” Our government today, however, thinks it can make people happy by becoming their ATM machine, dishing out gobs of cash with no end in sight. It is called inflation but also enslavement, putting us all into enormous debt. Thomas believes this bailout is also a form of vote buying designed to keep certain politicians in office. For whatever the reasons, Thomas warns us: “If we don’t do something to reverse the debt, other than raising taxes on the productive in order for Congress to continue its irresponsible spending, America as we know it may cease to exist.”

Infringing on Bill of Rights: The same kind of police-state tactics that were happening in China, began happening in the United State. It appears that elected officials, governors and mayors began to totally forget their oath of office to support the U.S. Constitution and its Bill of Rights, as they began to usurp more and more power unto themselves. One by one the First Amendment was trampled on: Freedom of Press, Freedom of Assembly. Freedom to Petition the Government; Freedom of Speech, and Freedom of Religion.

Tucker Carlson of FOX news interviewed the governor of New Jersey, Phil Murphy, on his show April 15 and asked him about his heavy-handed tactics in his state, where people were arrested for walking on the beach. Tucker asked, “By what authority are you nullifying the Bill of Rights?” Governor Murphy laughingly replied, “I’m afraid that is above my pay grade. I wasn’t even thinking of the Bill of Rights.”

Remember the wise words of Benjamin Franklin:
